Hello Kids,

This is the final decision making week for your city. Can you think of what you might have left to include in your city? You can do as much or as little as you like.

Hugs,

Mrs. Lessman

Building Workshop:

This week you are working on the residential buildings of your city. I have included a link to an article about one type of residential building. After reading the article, use the second page of the directions to choose residential buildings for your city that are within your budget. Think about having a variety of types as well as maximizing how many people can live in the city. Then, add your choices to the grid map of your city.

Send me a photo if you like. My email is mindy.lessman@thompsonschools.org

Residential Buildings Choice List

You have $800,000 to buy residential buildings for your city. Feel free to use a calculator or to simplify the numbers.

Apartment Building
(holds 20 apartments with a maximum of 4 per unit) $150,000

Suburb adjacent to the city
(has 20 houses with a maximum of 6 per house) $250,000

Tiny House
(hold 2 per house) $15,000

Villa
(holds a maximum of 5 people) $100,000

Mansion
(holds a maximum of 8 people) $150,000

Remember that you can purchase more than one of any of these types of residential buildings, just don’t go over the budget!
